NOTICE: During the duration of the contest you are required to have two six-hour breaks, may they be separate or joint breaks.

Many stations with special callsigns will operate from all over Greece (SZx, SXx), as well as from all the Greek Locators and of course in every mode CW, SSB, FM, RTTY, SSTV PSK etc.

It will be a great opportunity for every radioamateur to get QSL cards from Greek stations on VHF for their VHF Awards or to simply to confirm Greece on VHF & 6m.

The Contest will be held according to the IARU Band Plan of Region-1 on 50, 144, 432 MHZ. There will be not any QSOs in FM modulation on 50 MHZ because it is restricted by the Greek authorities.
